Shade Rothkopf

Software Developer

UVM Computer Science • sfrothko@uvm.edu
https://shadeydo.github.io

EDUCATION

University of Vermont B.S. Computer Science - *Expected May 2029*

EXPERIENCE

Software Developer at VERSO's ORCA
Jan 2026 – Present

- Contribute to open-source projects spanning ***web apps, game development, and tools*** for UVM and Burlington.
- Meet with clients to understand requirements and communicate progress and timeline.
- Conceptualized and built a node-based editor to improve a client's ability to visualize and modify branching quiz paths.

Teacher's Assistant - Intermediate Programming
Spring 2026 - Fall 2026

- Identified shortcomings with the homework grading system and coded six new universal autograder checks that ***increased the average homework grade by 8%.***
- Ran weekly office hours to help CS students with homework and quizzes.
- Graded over 150 assignment submissions.

INDEPENDENT WORK

CalcMod - Minecraft Mod
Aug 2022 - Present

- Co-developer and maintainer of a Minecraft mod with ***over three million downloads*** worldwide.
- Focus on features that all players find useful without interrupting gameplay.

Chicago Street Art Map
May 2025

- Explored Chicago capturing and categorizing a total of ***466 graffiti in an interactive map*** online.
- Discovered just four artists that make up 15% of all the documented graffiti.

Python Fractal Explorer
Dec 2024

- Coded a Mandelbrot set explorer, creating ***14 similar fractals*** in the process.
- Demonstrated the software to peers and explained the math behind it in an interactive 20 minute presentation.

Discord Language Analytics
Aug 2026

- Explored language trends across 400k messages in my friend group's chat.
- Extracted metrics from messy data, like the most common number of O's after "lmao" is actually 3.

Languages:
Python, Java, C++, JavaScript, GDScript

Libs/Tools:
Node.js, pandas, Three.js, ArcGIS, Git
