

Shade Rothkopf

Software Developer

Burlington, VT • (312) 965-5236 • sfrothko@uvm.edu

Summary

Software developer with experience contributing to open research and community-focused software projects through UVM's Open Research Community Accelerator (ORCA). Proficient in Python, Java, and JavaScript, with experience building educational tools, web applications, and open-source software. Motivated to collaborate closely with others, contribute to meaningful projects, and grow through hands-on development experience.

Skills

Languages:

Java, Python, Javascript, C++

Web & Tools:

HTML, CSS, GitHub, Three.js, ArcGIS

Experience

VERSO's ORCA — Software Developer

01/2026 – Present

- Contributed to agile, community-driven open research projects through UVM's Open Research Community Accelerator
- Developed educational game systems for the Endless Threadbare project and built a PDF stitching web app for the UVM Library
- Collaborated on interdisciplinary software projects emphasizing usability, accessibility, and iterative design

UVM Chrome Extension — Creator

JavaScript, HTML/CSS

- Built a Chrome extension to help UVM students view professor ratings during course registration (100+ users)
- Integrated dynamic data display and implemented user feedback to improve usability
- Promoted software through word of mouth to garner a user base

Open-Source Minecraft Mod — Java Developer

GitHub | 1.7M+ Downloads

- Co-developed and maintained a widely used Java mod, collaborating through GitHub issues
- Designed features with a focus on improving user experience and accessibility
- Authored comprehensive documentation to help users and future contributors navigate the project
- Responded to user feedback and iteratively improved functionality to enhance community engagement

Graffiti Mapping Project — Data Visualization

Pandas (Python), ArcGIS

- Created an interactive geospatial map tracking and visualizing graffiti across Chicago
 - Integrated geotagged photo data with spatial analysis tools
 - Generated graphs of common graffiti using data from logged images
-

Education

Bachelor of Science in Computer Science

- In progress, expected graduation May, 2029

High School Diploma

- Graduated: June, 2025
