

Shade Rothkopf

Software Developer

UVM Computer Science • sfrothko@uvm.edu

<https://shadeydo.github.io>

EDUCATION

University of Vermont B.S. Computer Science - Expected May 2029

EXPERIENCE

Software Developer at VERSO's ORCA

Jan 2026 – Present

- Contribute to open-source projects spanning *web apps, game development, and tools* for UVM and Burlington.
- Meet with clients to understand requirements and communicate progress and timeline.
- Conceptualized and built a node-based editor to improve a client's ability to visualize and modify branching quiz paths.

Teacher's Assistant - Intermediate Programming

Spring 2026 - Present

- Identified shortcomings with the homework grading system and coded *six new universal autograder checks* to fix those issues.
- Ran weekly office hours to help CS students with homework and quizzes.
- Graded over 150 assignment submissions.

INDEPENDENT WORK

CalcMod - Minecraft Mod

Aug 2022 - Present

- Codeveloper and maintainer of a Minecraft mod with *over three million downloads* worldwide.
- Focus on features that all players find useful, without interrupting gameplay.

Python Fractal Explorer

Dec 2024

- Coded a Mandelbrot set explorer, finding *14 similar fractals* in the process.
- Demonstrated the software to peers and explained the math behind it in an interactive 20 minute presentation.

Chicago Street Art Map

May 2025

- Wandered Chicago, capturing and categorizing a total of *466 graffiti in an interactive map* online.
- Discovered just four artists that make up 15% of all the documented graffiti.

Discord Language Analytics

Aug 2026

- Explored language trends across 400k messages in my friend group's chat.
- Unearthed *surprising patterns in mundane messages*, like the most common number of O's after "lmao"

Languages:

Python, Java, C++, JavaScript, GDScript

Libs/Tools:

Node.js, pandas, Three.js, ArcGIS, Git
